RENEXPO® SOUTH-EAST EUROPE - for a Powerful Future

The 4th International Energy Trade Fair of Romania -
supports the building up process of a powerful future

RENEXPO® SOUTH-EAST EUROPE, Romania's largest and most important renewable energy and energy efficiency event, comes back with the 4th edition to Palace Hall Bucharest, between the 9th - 11th November 2011. Since 2008 it also became known as one of the biggest energy platforms in the South-East European region and a meeting point in the capital of Romania for key players and experts.

The renewable energy field is a clearly growing industry in Romania. On the one hand the country offers good conditions, on the other hand the increasing demand in the country and in the region represents stimulation for large investments. The number of green certificates traded in March 2011 on the Centralized Green Certificates Market rose with 17.785 units compared to last years statistics.

In the public area the Environment and Forest Ministry approved the financing of the national program regarding the installation of heating systems using renewable energy or supplementing conventional heating systems.

Therefore, RENEXPO® SOUTH-EAST EUROPE is the perfect place to get in contact with experts and key persons from the renewable energy field in Romania. The event brings together for the 4th time from 9th – 11th November 2011 at Palace Hall Bucharest multipliers and actors from the south-eastern European area to a central event.

An increase of over 10% more exhibitors is forecasted in 2011, that will reflect the continuing positive trend of the industry at large. During the three days of the trade fair, 75 exhibitors will inform over 3500 visitors of their innovative products and services in the area of renewable energies and energy efficiency.

The international trade fair expects you with topics like: wind energy, solar energy, hydropower, biogas, heat pump & geothermal energy, energy efficient construction & renovation, energy services, cogeneration and many others. The Wind & Solar Park is a separate trade fair areas, where exhibitors from these fields will gather in order to be found easier by the specialised visitors.

Several accompanying conferences with renewable energy topics: wind energy, solar energy, biomass, hydropower and others will take place as part of the trade fair, where national and international public authorities, associations, scientists and companies present trends, research results, technologies and innovations in their field.

Further information about RENEXPO® SOUTH-EAST EUROPE, from 9th – 11th November 2011 at Palace Hall Bucharest, - you can find under www.renexpo-bucharest.com.
